DETAILED ACTION

1. Claims 1-54 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schiel (6,004,429) or Edwards et al (6,287,426) in view of Hay et al (WO 0012817 - PCT/GB.99/02684)

The claims are rejected as set forth in the First Office Action, Paper No. 9.

2. Applicant's arguments are not found persuasive of patentability. It is urged that there is no motivation or suggestion to use the Hay fabric in the Schiel or Edwards et al inventions. Motivation is found in pages 1 and 2 of Hay et al where it is explicitly stated that the fabric is advantageously used as a forming fabric especially for tissue machines, which Schiel and Edwards et al are.

It is also urged that Schiel and Edwards et al do not show the forming element, two rotating dewatering belts, shoe press, the length of the press zone, pressure. These elements are all well known and shown by Schiel or Edwards et al. Note that the pressure and nip lengths are notoriously well known and can be found in column 4 of Schiel.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
